

DONOR FAMILY STATEMENT:

While we are heartbroken at the loss of our beloved mother, sister, and friend, we are comforted by the fact that she chose to be an organ and tissue donor. In a life defined by kindness and caring for others, she has given the gift of life to four people.

Hers was a life filled with laughter, love, and a radiant smile that would brighten your day. She was strong enough to never lose hope and joyfully engaged in a lifelong quest for wisdom and peace. She always took time to smell the flowers, especially wildflowers.

Our loved one held fast to the belief that at the beginning and the end of the day, we are all family, by birth or friendship, because we love and care about each other. We believe that her spirit will live on through the human connections she made in life, including the four people who she never met yet whose lives are now intertwined with her own.
