

Statement from Donor Family representative Bobbi-Sue Harrington:

“With the guidance and support of New England Donor Services (NEDS) during our time of extreme grief, we became aware of the benefits of organ donation. It gave us hope in otherwise hopeless moments. When we met Carmen in a Zoom interview after her transplant, we were struck with the enhanced quality of life Carmen is able to have and are grateful that this gift of donation can make such a positive impact in her life. Carmen is an incredibly positive person, and that's wonderful to see.”
